

**PACKAGE OF THE
89th COURSE on POLYMER RHEOLOGY AND EXTRUSION
presented by Professor John Vlachopoulos**

Package cost US \$795 includes:

1. Five recorded lectures of 2 hours each one, total 10 hours
2. More than 400 lecture slides in PDF form
3. Textbook titled “Understanding Rheology and Technology of Polymer Extrusion” 339 pages, in PDF form
4. CALCUTRUDE LITE software package for quick calculations of pressure drop, shear rate, shear stress and temperature rise due to viscous heating in tubular, planar, annular and converging dies.
5. Five sets of homework assignments corresponding to the five lectures
6. Personal assistance, as needed, via email or Zoom from the lecturer
